

Radial Drilling Machines **R 32 Basic**

TECHNICAL SPECS

WORKING AREA

Drilling capacity	32 mm
Column diameter	200 mm
Throat	320 mm - 820 mm
Spindle nose-to-table surface distance	320 mm - 860 mm
Cube table dimensions	400 mm x 400 mm x 350 mm
Machine table dimensions	1370 mm x 700 mm x 160 mm
Quill stroke	240 mm
HEADSTOCK	
Spindle mount	4 MT
Speed range	75 1/min - 1220 1/min
FEED	
Feeds	0.1 mm/R - 0.25 mm/R
DRIVE CAPACITY	
Motor rating main drive	1.5 kW

1.41 m x 0.72 m x 1.89 m

1180 kg

Overall dimensions

Weight

(length x width x height)

SKU: 101522

As an entry-level model, this radial drilling machine offers 32 mm (1.26 in) drilling capacity, 820 mm (32.28 in) throat and 860 mm (33.86 in) processing height. The model belongs to our R Basic series of classic radial drilling machines with manually switched gears and manual clamps. With their heavy weight they guarantee the best stability with an excellent price-performance ratio. Due to the easy handling of large workpieces and the robust design, we recommend these models for use in workshops and steel construction, among other applications. A cube table is part of the standard equipment for smaller workpieces.

- Easy positioning on all axes
- Motorized height adjustment of the boom
- Spindle made of premium hardened steel
- Mechanical clamping for head, column, and arm

Hand-lever for quill feed is used to control the automatic feed

Rigid column base with central main switch

PRODUCT DETAILS

- For drilling, reaming and tapping Machine frame made of high-quality fine-grain cast-iron with heavy ribbing to ensure maximum reduction of vibrations
- Precision-ground gears for quiet operation
- Practical layout of electrical and mechanical controls at the headstock for easy
- Motorized arm height adjustment
 The spindle is made of high-quality hardened steel of consistent accuracy
 Mechanical clamping for head, column and arm

STANDARD EQUIPMENT

Coolant system Cube table Halogen lights

KNUTH on YouTubeInformation to the point

On our YouTube channel you can find videos for nearly all machines from our program. We show the machines from current deliveries and you get an impression of the handling, the processing quality and the machining performance.

Are you interested in a machine for which you cannot find a current video? Please feel free to contact us!
