ELB Brillant B 10 SPS

ELB Brillant B 10 SPS surface grinding machine with CA Surface Grinding Control control system, built in 2015, excellent condition. CE compliant!

The machine comes from the training workshop of a renowned German mechanical engineering company.

Technical data:

Year of manufacture 2015 Completely overhauled for €57,800

X-axis 1000 mm

Y-axis 500 mm

Z-axis 450 mm

Table length 1360 mm

Table width 590 mm

Table load 1050

Feed X-axis 26000 mm/min.

Feed Z-axis 26000 mm/min.

Grinding stone dimensions 400 x 100 x 127 mm

Dimensions

Length 4500 mm

Width 2500 mm

Height 2900 mm

Weight 6100 kg

About the machine:

We are offering an ELB Brillant B 10 SPS surface grinding machine with CA Surface Grinding Control. This universal surface grinding machine is in very good original condition. It comes from a company where it was only used for training purposes.

Very easy to operate control system. A grinding path of 1000 mm in the longitudinal axis and a cross path of 500 mm is assigned to the product portfolio of toolmaking, fixture construction, and small series production. This series is characterized by its extensive basic equipment and easy handling. The stable design of the spindle head and the guide principle with double V-guides in the longitudinal and transverse axes guarantee long-term precision. The intuitive operation of the controls simplifies operation and significantly increases productivity. The guides are regularly lubricated by the central lubrication system. The ELB has been mechanically and electrically tested by us. Take the opportunity to view and try out the ELB on site under power.
