company profile

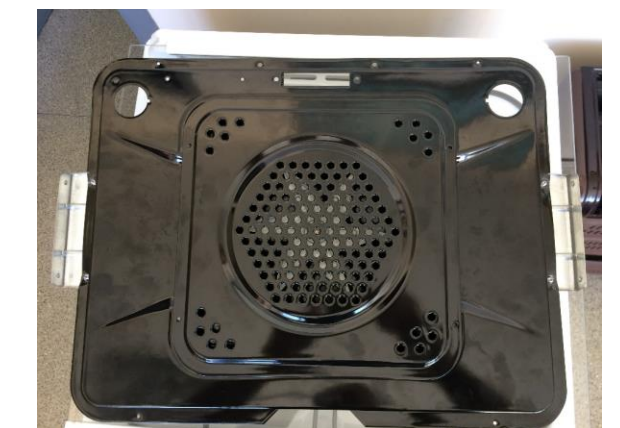

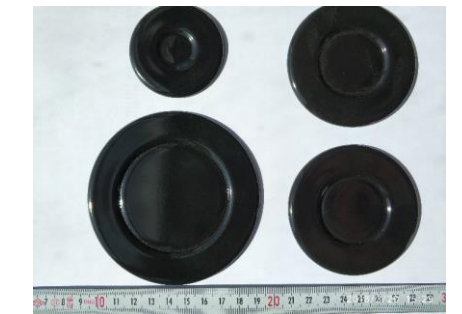

- **mutlu.ltd** is located in Istanbul-Turkey, and has been in sheet iron die sinking industry since 1978.
- Operating in 500 m2 closed area.
- We've started our business by manufacturing sheet iron molds and sheet metal printings.

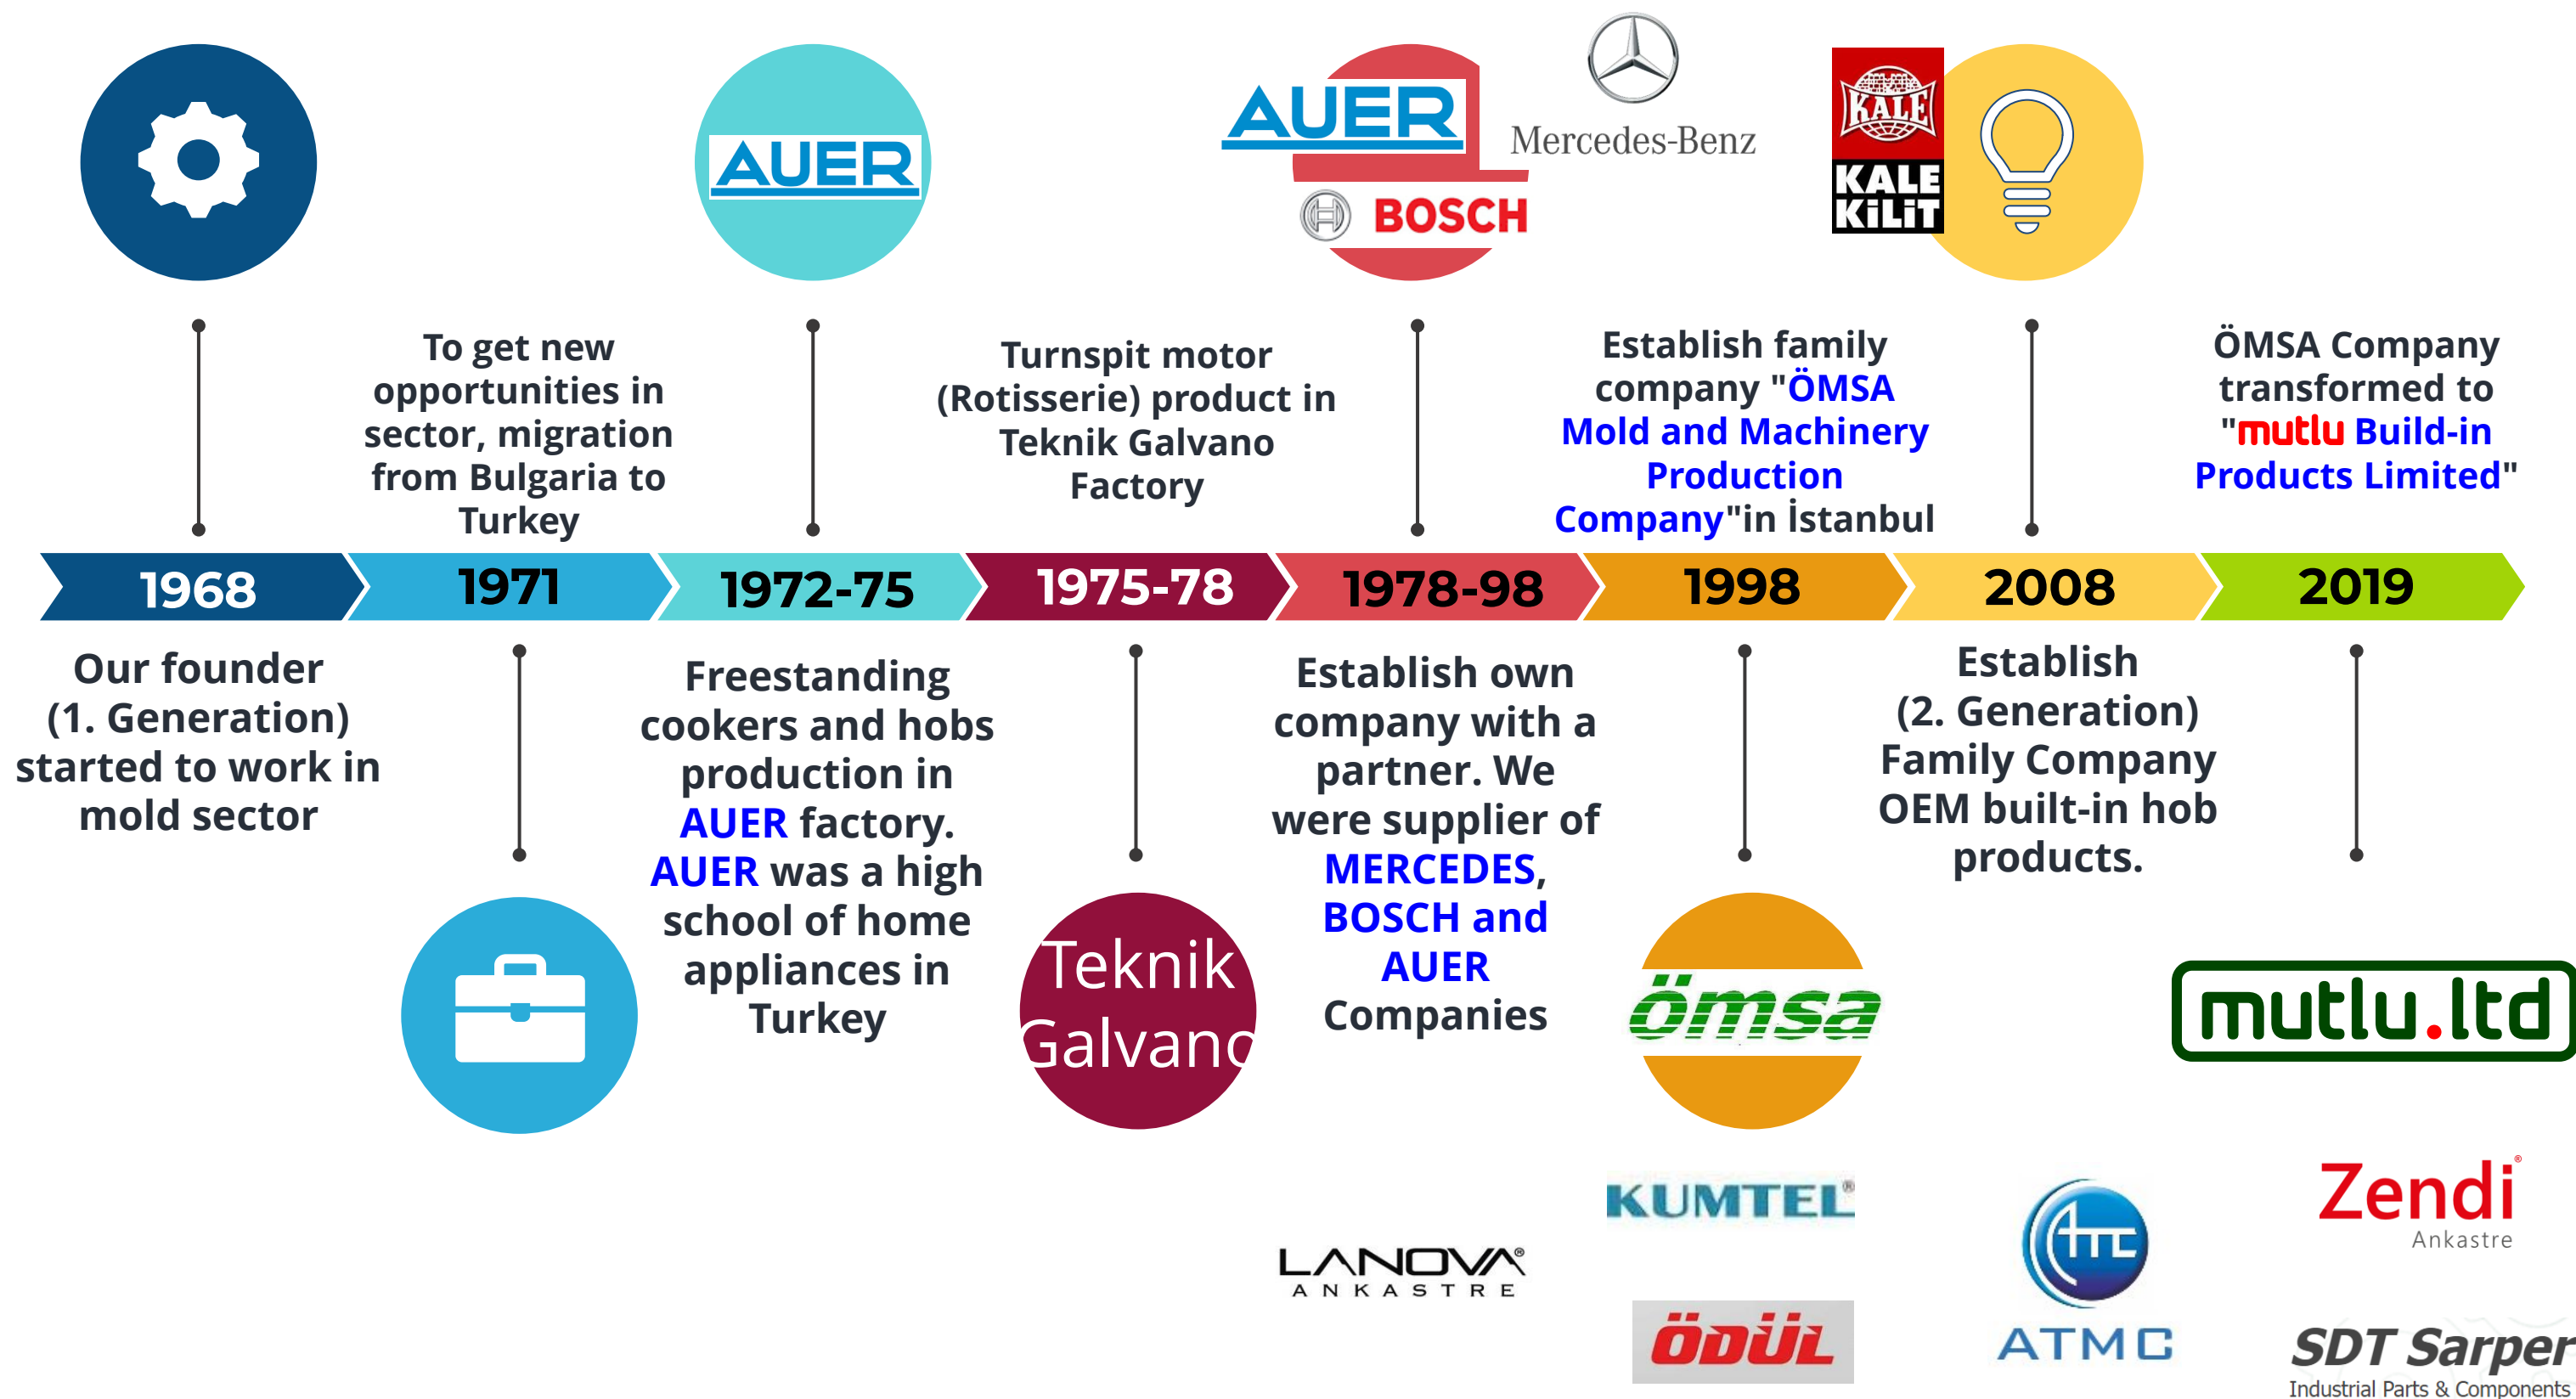

- We have been toll manufacturing sheet metal parts to industries like white goods, automotive, construction and food for a long time.
- With the years of experience and know-how, we finalized **built-in hob and built-in oven molds** and started its toll manufacturing as well.
- Our company has computer-aided mold processing equipments, including presses that have pressures between 30 and 300 tons.

We are able to produce all below items:

- 60cm side-button inox hob parts
- 60cm front-button inox hob parts
- 70cm inox hob parts
- Domino (30cm) hob parts
- Pan supports (enamel) and flanges
- Glass and inox hob bottom sheet
- Built-in oven cavity parts
- Built-in oven external case parts
- Hood sheet iron parts (white, inox)

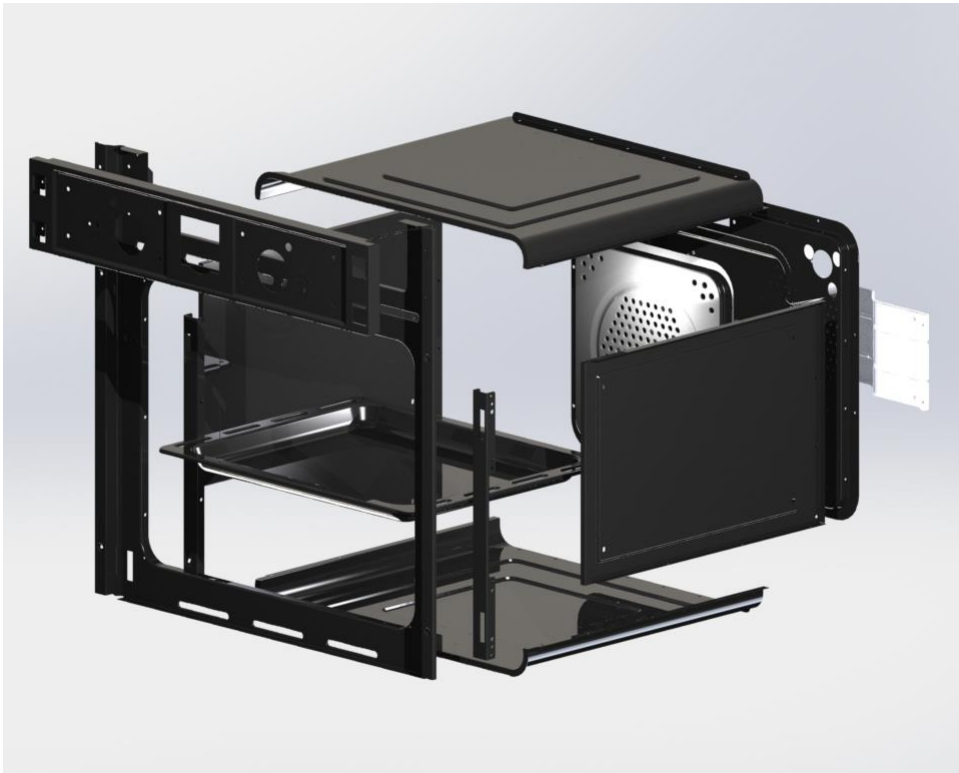

timeline

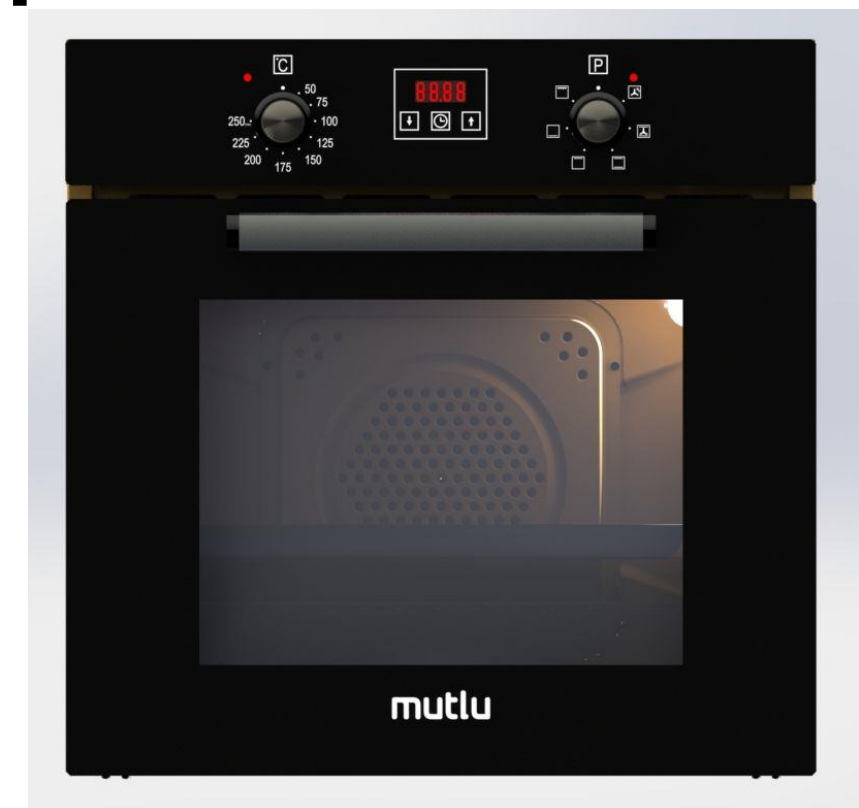

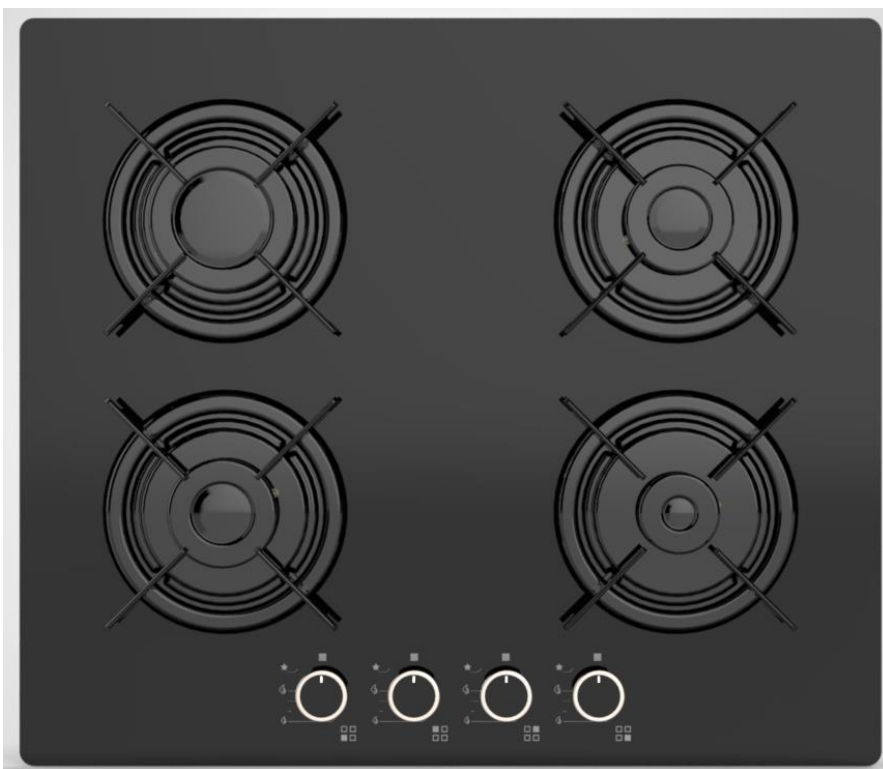

timeline

now

2024

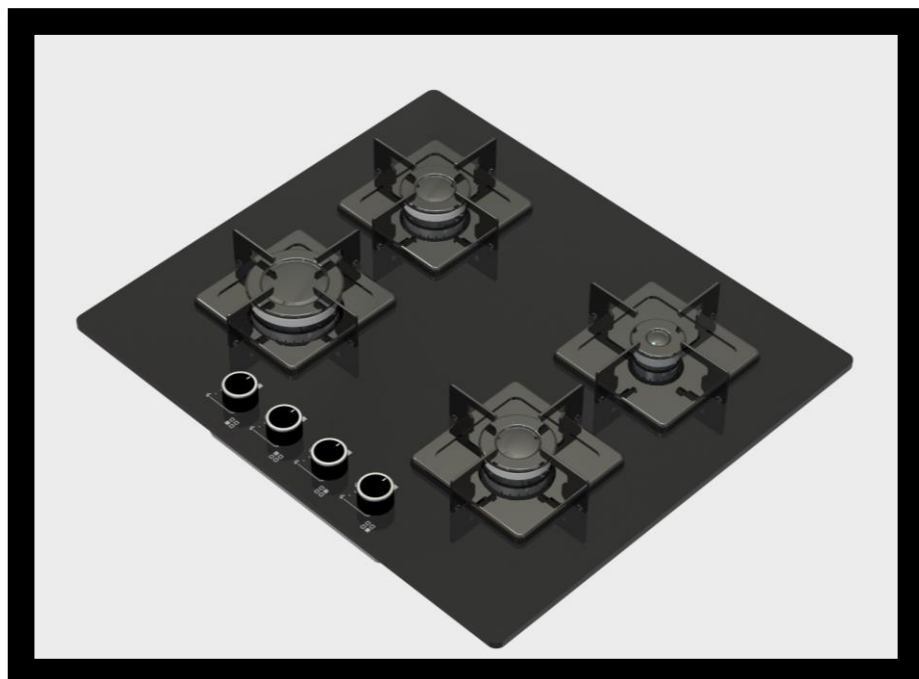

Currently; **mutlu.ltd** produces mainly built-in ovens, hobs and hoods sheet metal parts and has oven-hob-hood models which ready to produce.

timeline

now

We produce all sheet parts and pan supports for tempered glass hobs. Our purpose is support you to assembly your own built-in hobs and we share technical information about hobs. **You can produce 30 cm, 60 cm, 70 cm and 90 cm tempered glass built-in hobs** with our support.

We have different models of finished **electrical and gas built-in oven** that ready to produce. Our main goal is support you to assembly your own built-in ovens. We designed the cavity available for SKD/CKD and with our design it's possible assembly ovens up to 9 programs.

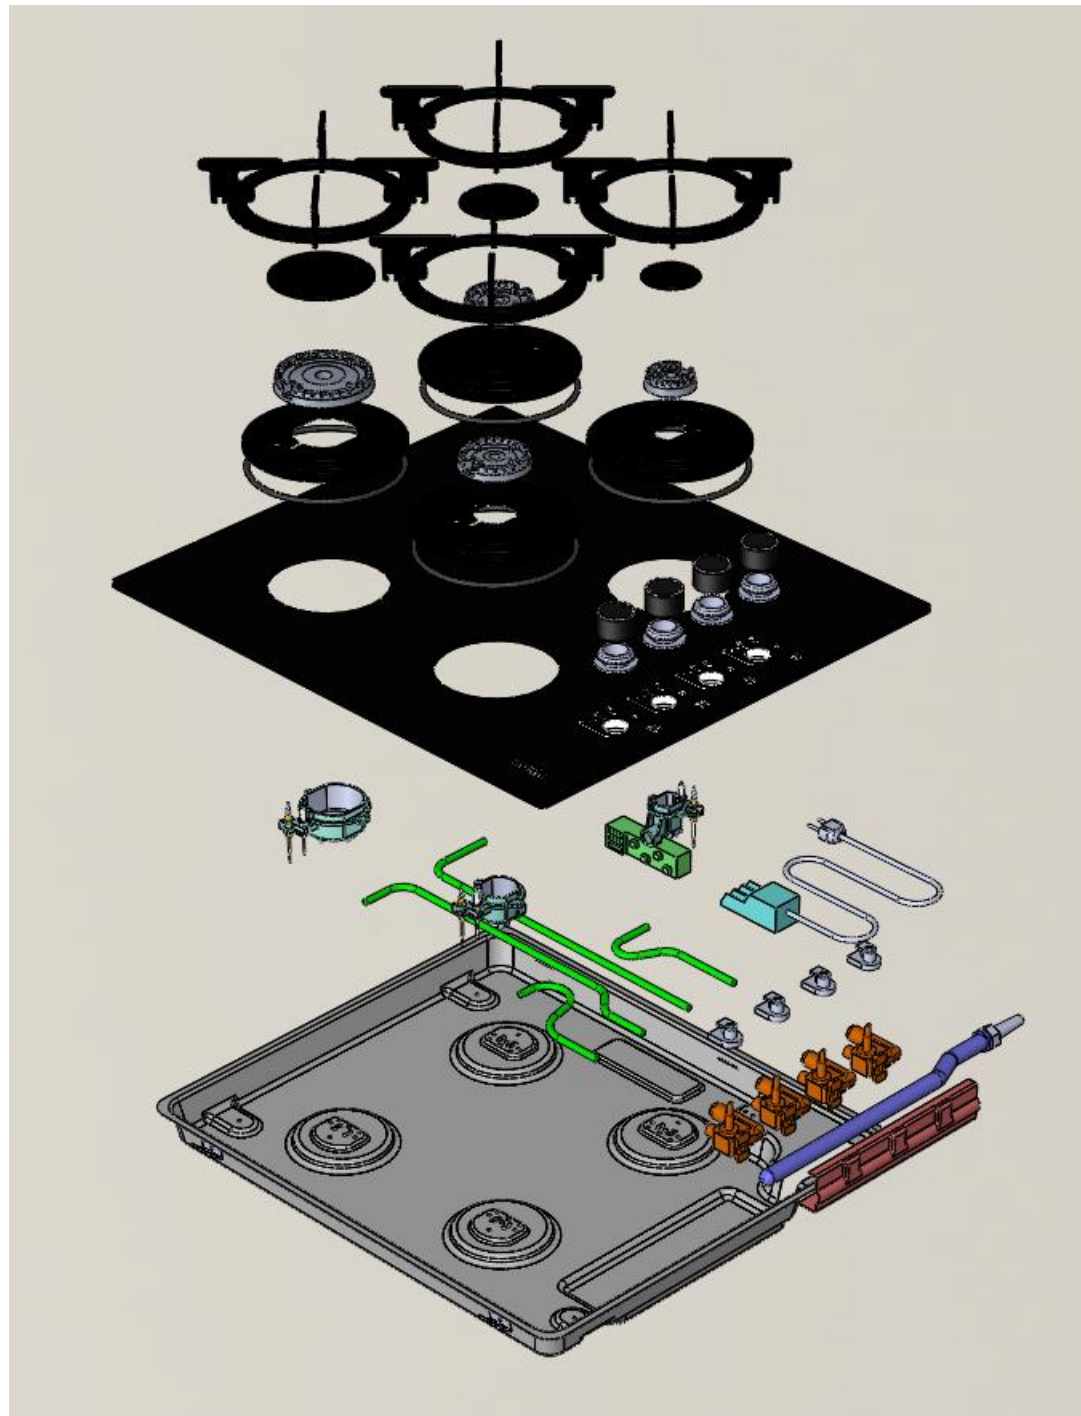

We produce over 70 built-in hob parts. **With this parts you can produce over 50 different combination built-in hob models.** We have 10 models of built-in hob surfaces ready to produce. We share main technical information about built-in hobs.

who we ARE ?

some of our own molds

our built-in hob specs

01

More than 50 built-in hob combinations

02

9 different stainless steel / enamel surface,
6 different tempered glass surface design

03

4 models of bottom sheet available for
stainless steel and tempered glass surfaces

04

Suppliers and components are ready produce

05

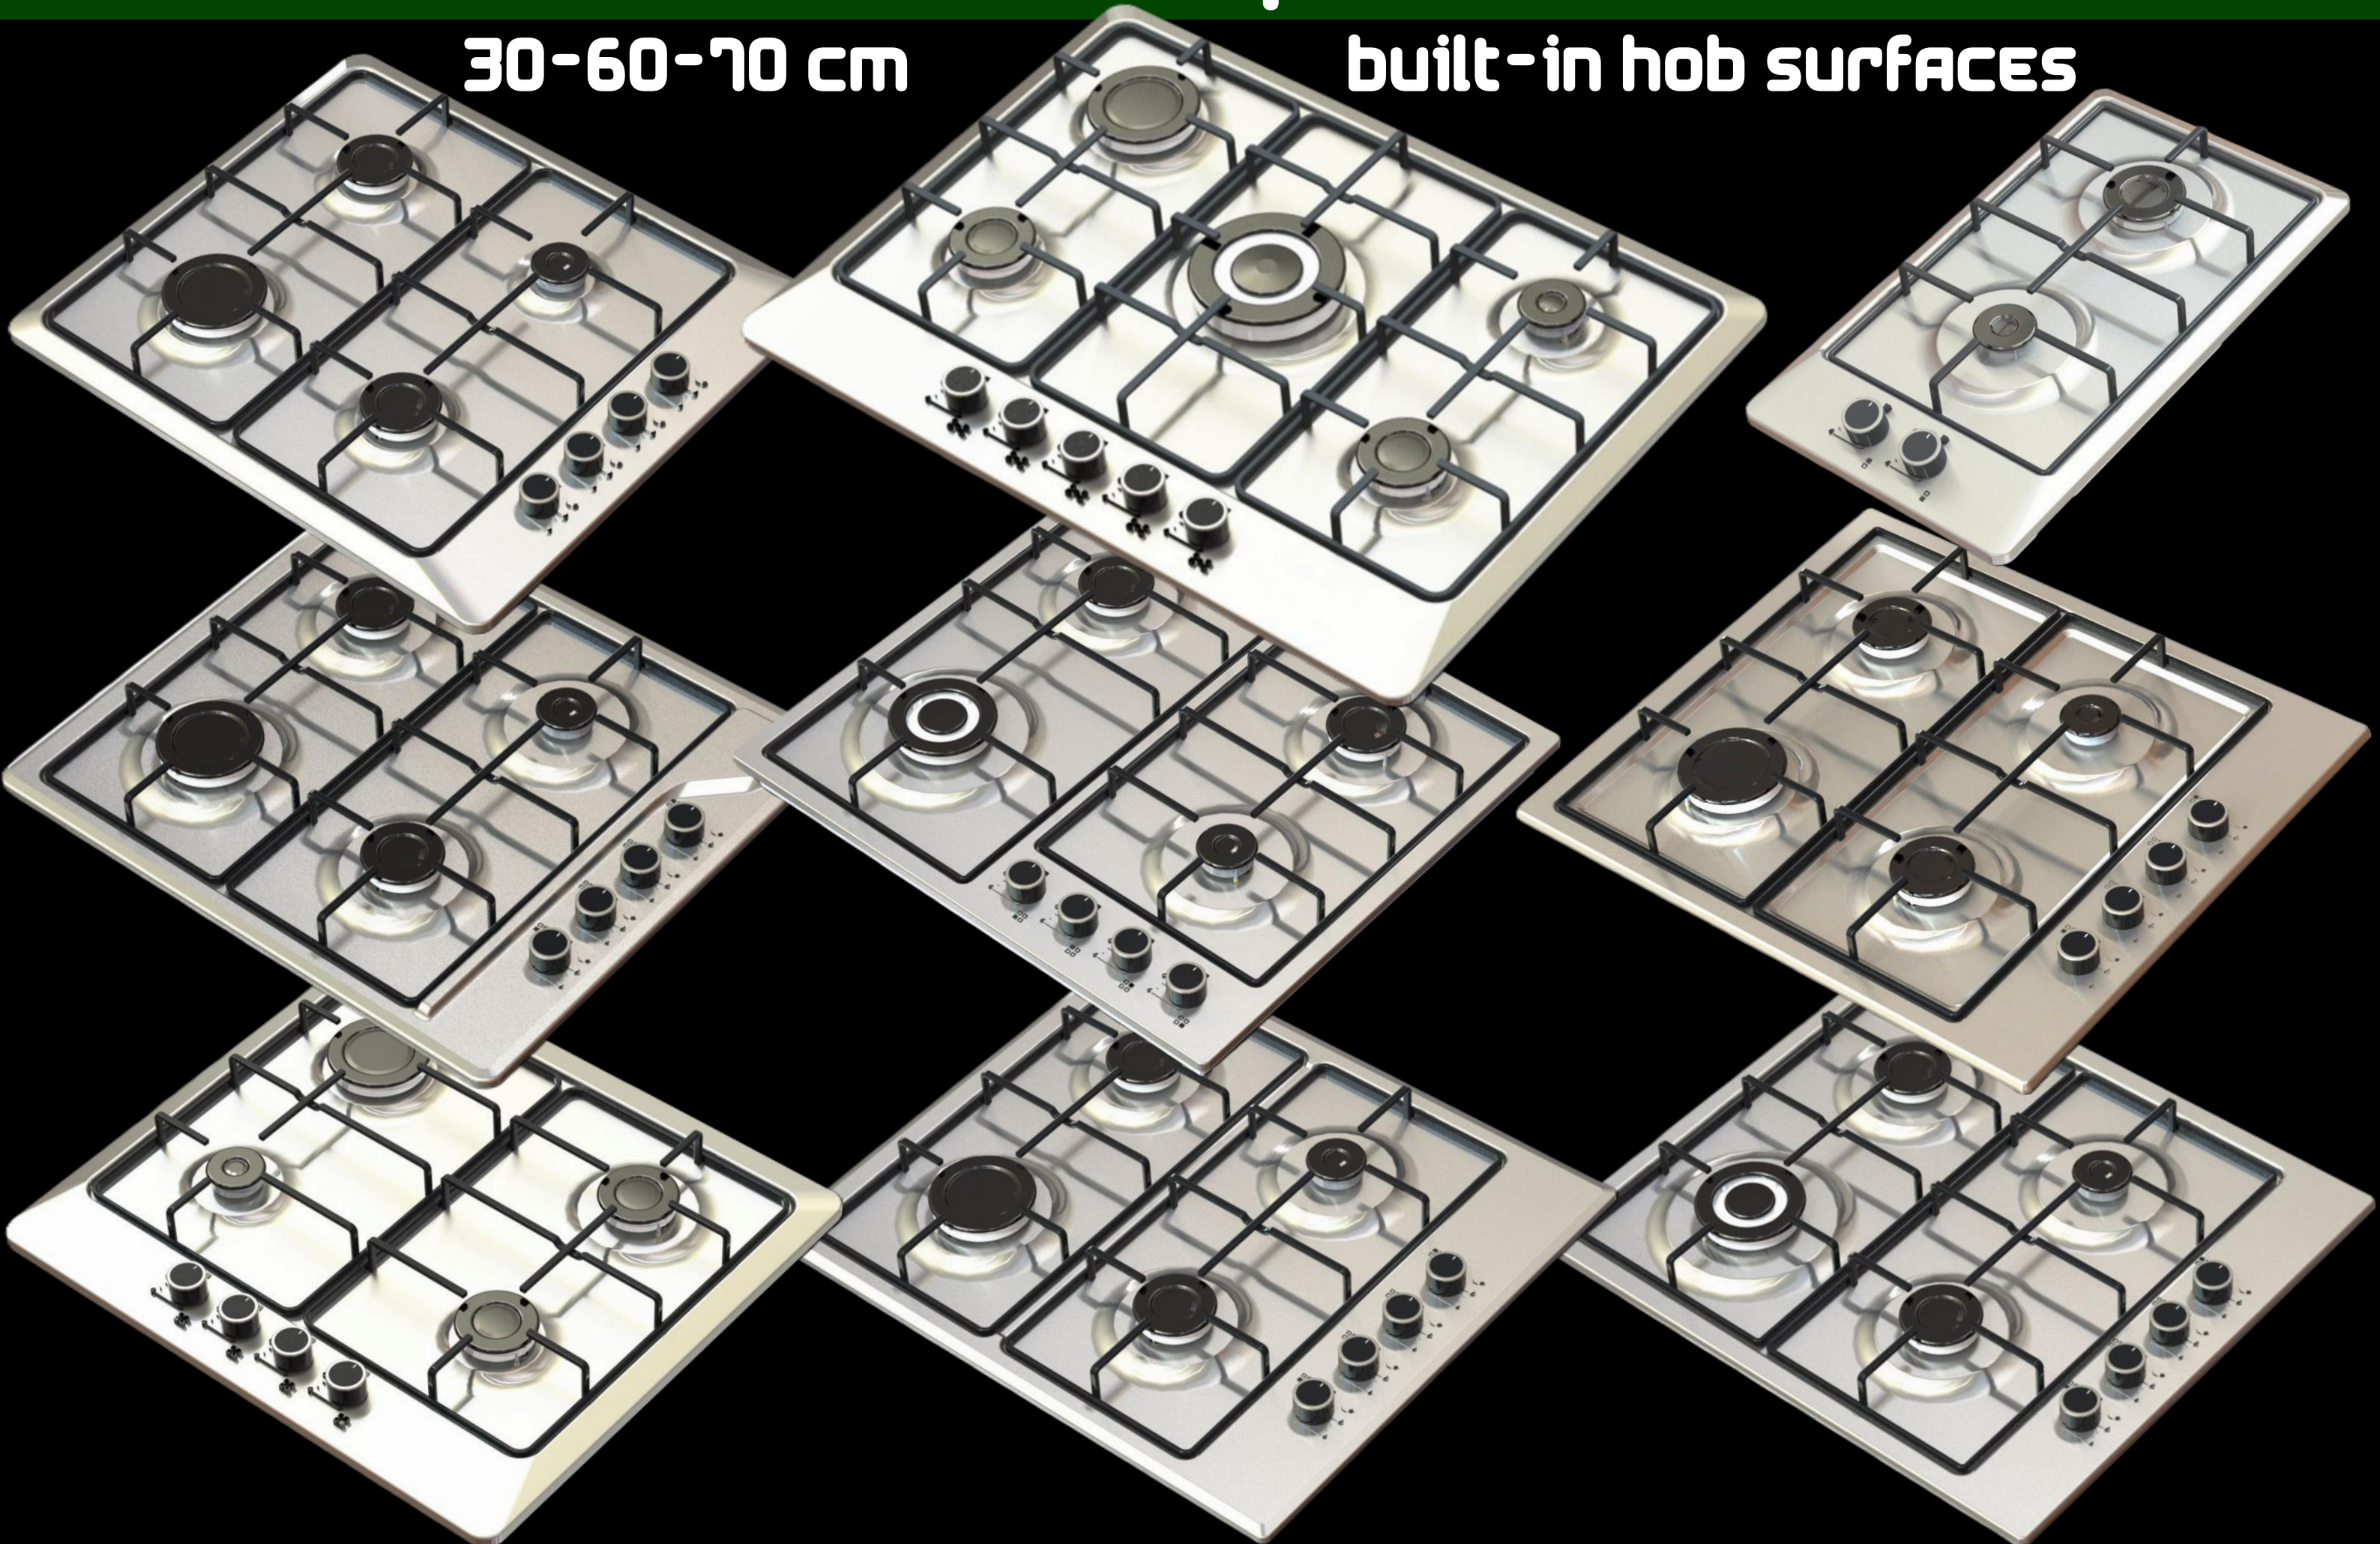

Over 70 different type of sheet metal molds

06

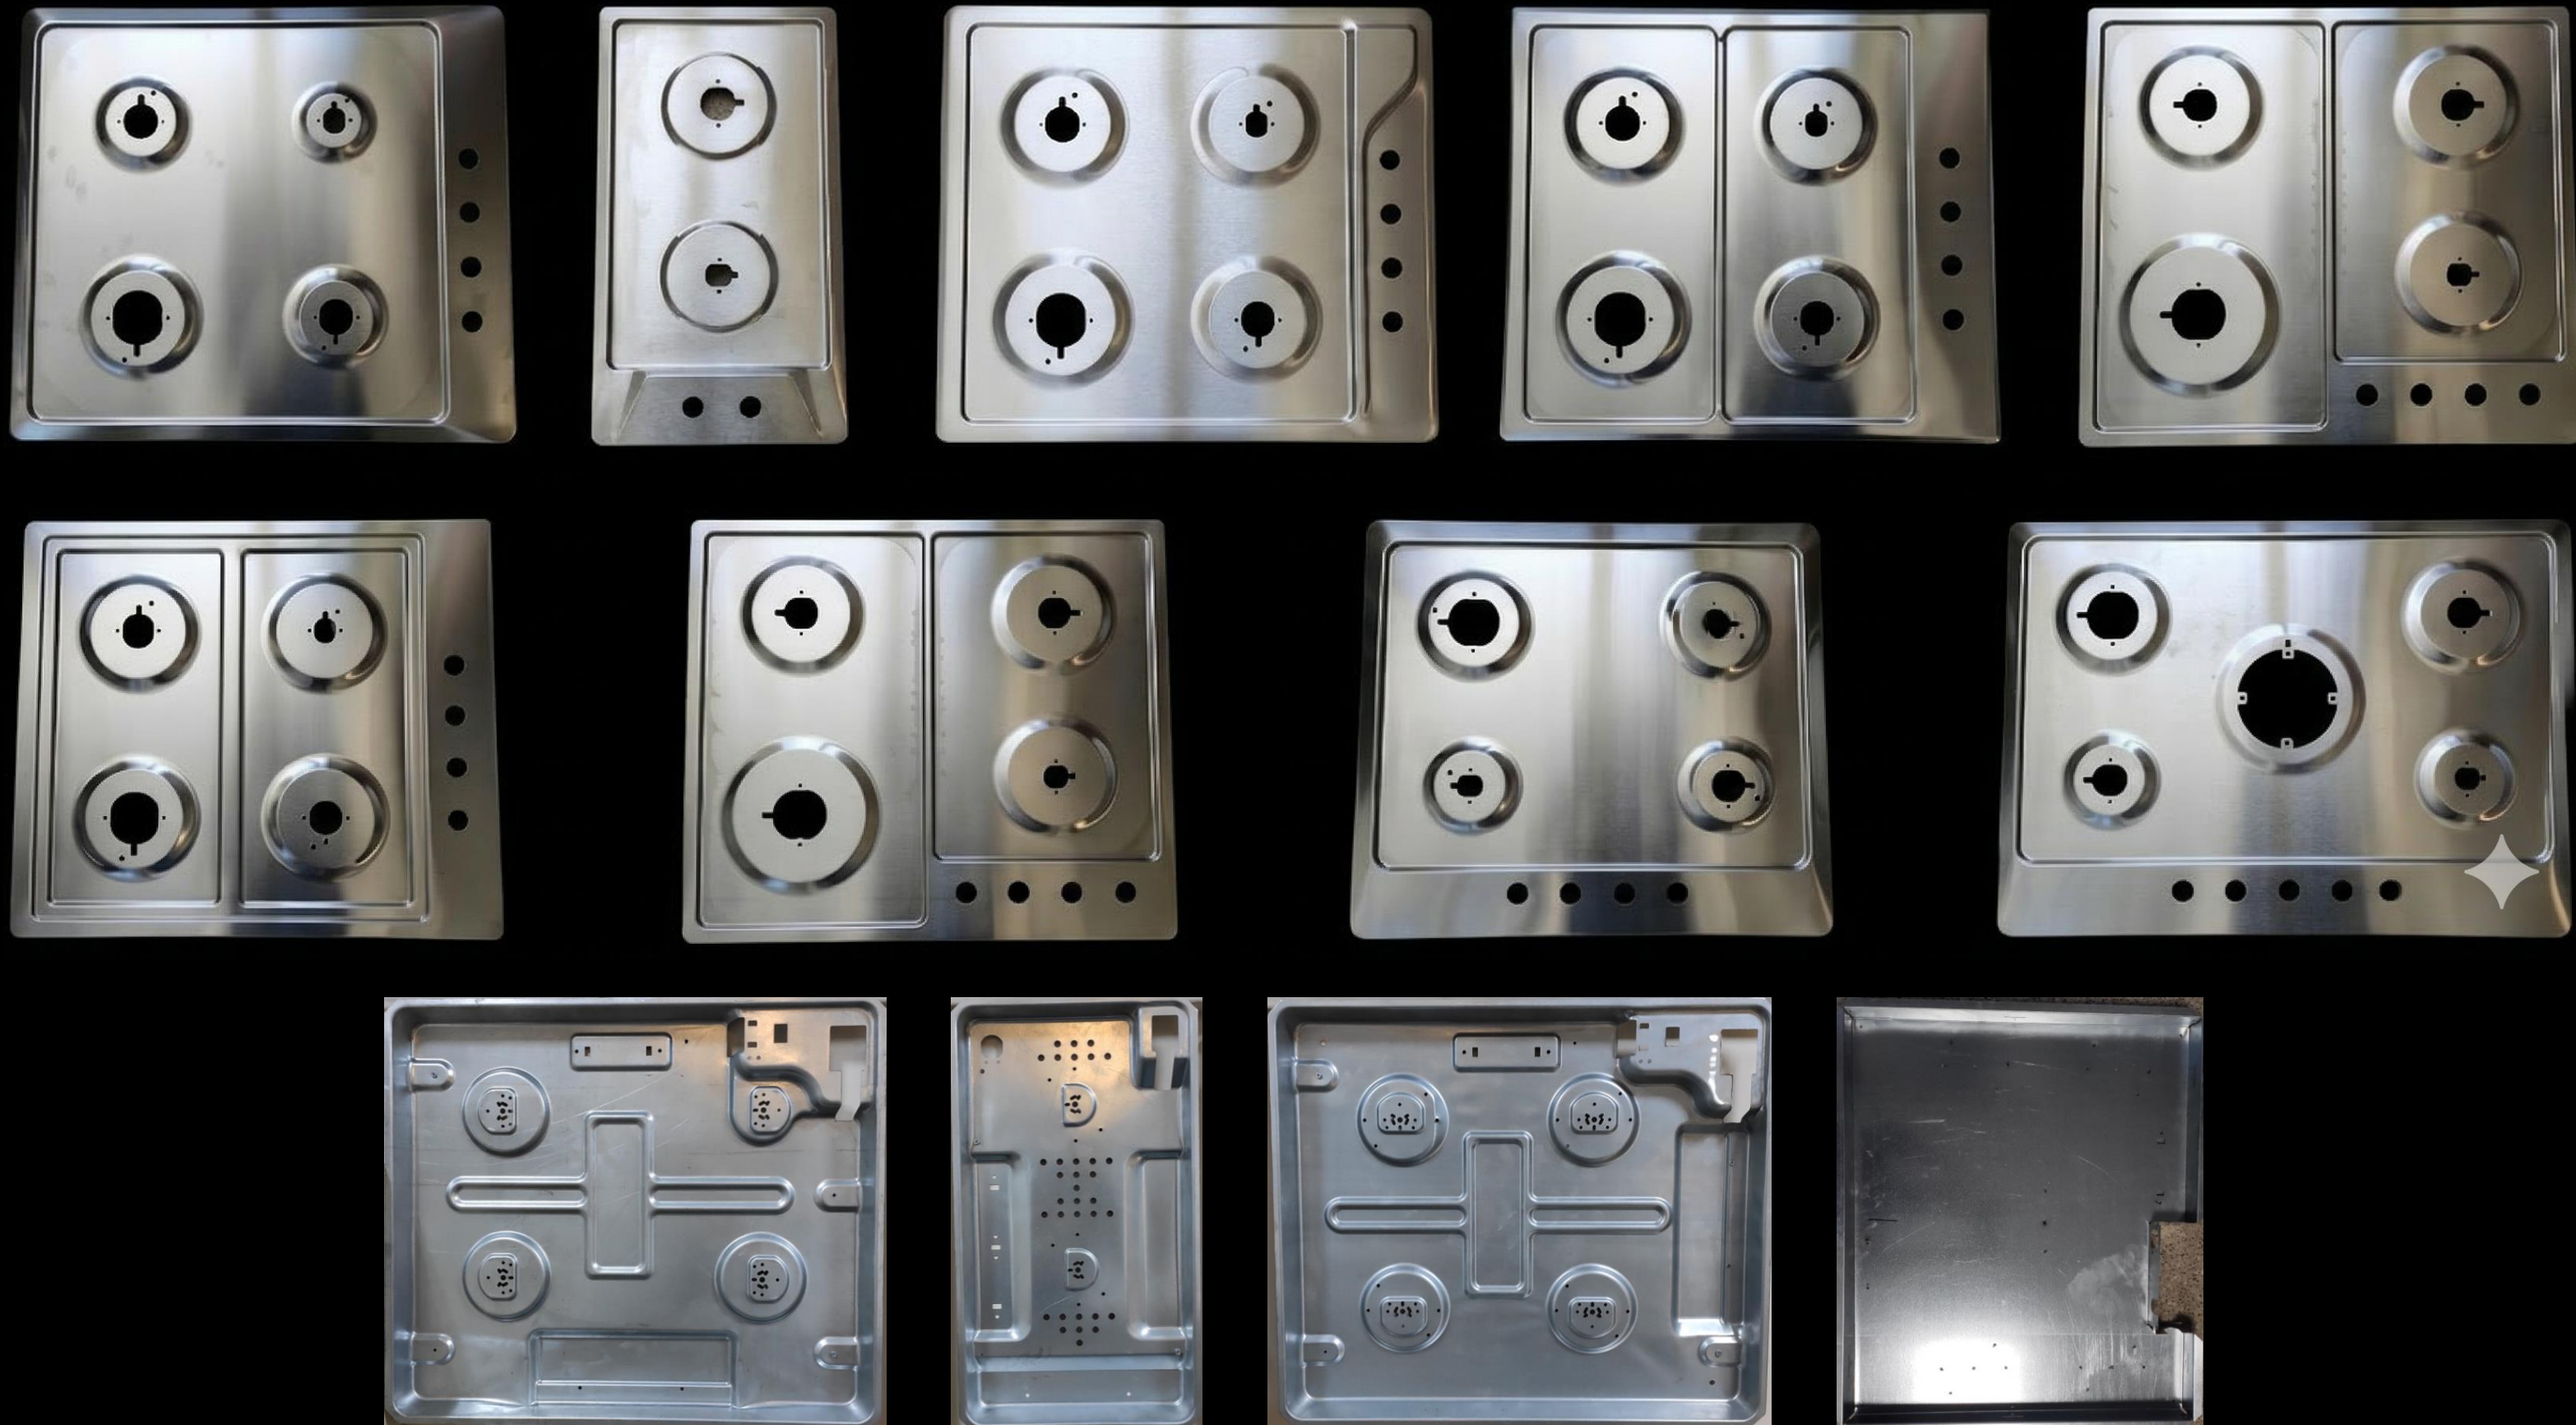

Own pan support options for tempered glass
surfaces (included WOK pan support)

30-60-70 cm
