

### SKU : 131336

The SB E Series Manual Folding Machines feature a heavy, robust construction and are designed for bending large plates with lengths up to 2000 mm. The machine features a long male die stroke and is equipped with a one-piece male die.

- Sturdy and torsionally rigid construction
- Long male die stroke with threaded spindles
- One-piece male die
- High counterweight for easy bending

## TECHNICAL SPECS

### WORKING AREA

Working length	2060 mm
Plate thickness (max.) - 400 N/mm <sup>2</sup>	2 mm
Bending bar angle (range)	135°
Top beam travel	210 mm
Adj. lower bending beam	100 mm

### MEASURES AND WEIGHTS

Overall dimensions (length x width x height)	2.9 m x 0.65 m x 1.74 m
Weight	1750 kg

## PRODUCT DETAILS

- Cast-iron construction
- Rigid and durable construction
- Versatile use

## STANDARD EQUIPMENT

Male die  
Operator manual

## KNUTH on YouTube Information to the point

On our YouTube channel you can find videos for nearly all machines from our program. We show the machines from current deliveries and you get an impression of the handling, the processing quality and the machining performance.
