

# mULTIDROP

YOU DREAM IT  
MULTIDROP CREATES IT

# MODELS

For decades, the Multidrop has served bakers worldwide. The models (Classic and Compact) are available in a range of versions to accommodate individuals' unique needs. Some of the greatest pastry chefs the world choose the Multidrop for its versatility, consistency, reliability, and ability to create new ideas.

*The Multidrop at its best.*

In addition to the varieties offered with the three types of dies, the ability to control the table's vertical motion as well as movement of the nozzles enables limitless creativity. You'll be able to invent the most creative shapes you wished, copying not only the horizontal movements of piping bag but also vertical ones. Release your creative energy.

# EQUIPMENT

HOPPERS: light, ergonomic, easy to handle, disassemble and clean.

ROLLERS HARD DOUGH HEAD: strengthened aluminium shoulders, grooved rollers in stainless steel. Equipped with self-lubricating teflon bushings which are easy to replace.

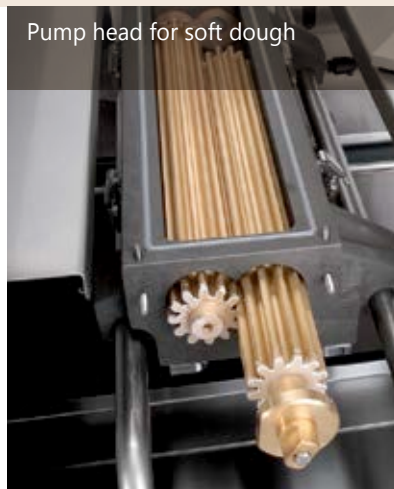

PUMP SOFT DOUGH HEAD: head jacket in strengthened aluminium, toothed gears in metal alloy.

VOLUMETRIC PUMP SOFT DOUGH HEAD: strengthened aluminium single piece with st/st independent cylinders. When weight precision must be perfect even with small particulates (e.g. fruit pieces, candied fruits, chocolate chips).

# FULL CONTROL

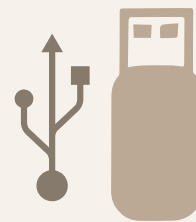

## INTUITIVE AND EASY-TO-USE TOUCH SCREEN DISPLAY

The Multidrop is equipped with advanced computer software which allows the creation and storing of many recipes. The computer, comprehensive but user friendly, allows you to control with precision every function of the machine.

## USB CONNECTION

To download stored menus and back-up functional parameters.

## The art of baking since 1929

We represent the largest Italian industrial market in building ovens and machinery for bread pastries and cookies.

We entirely produce the most complete high quality range for the modern “Art of Baking” laboratory. We have introduced important technological innovations for over eightyfive years worldwide.
