Material:

Material DD: Volute Casing + Stuffing Box body EN 1.4460\*, impeller + wear lining EN 1.4462\*, shaft protecting sleeve EN1.4404\*

\*or better material

TECHNICAL SPECIFICATION:

Pump: Pump consisting of bearing support, shaft seal, casing cover impeller and volute casing, pump flanges acc. To ISO-standard  
 Lubrication: Grease Lubrication  
 Coupling: Flexible Coupling with spacer  
 Coupling Guard: Coupling Guards with sight window  
 Seal Water Panel Seal Water Unit incl. alarm, check valve, hoses and stand  
 Foundation Material: Foundation fastening material for concrete base and base frame for pump and motor is included. Base frame included if required.
