

SCREEN DRUM MINI

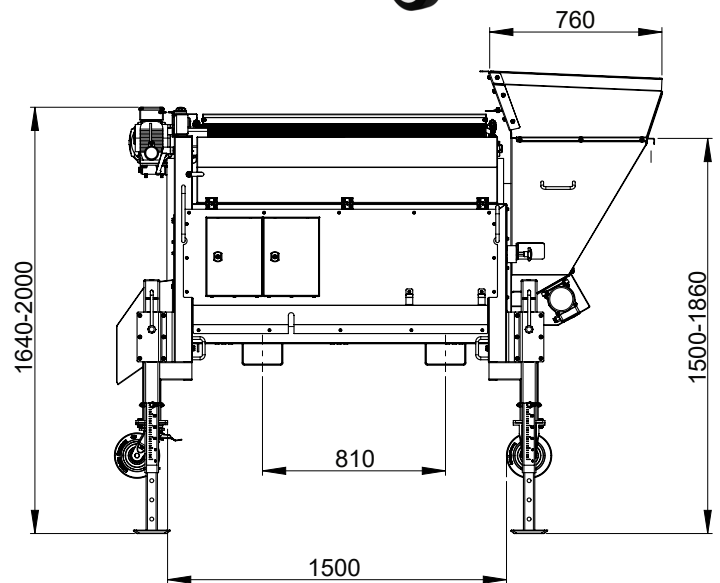

The Screen Drum ASCO® SD MINI is a foldable construction and the machine is a semi-mobile unit. With a vibration motor, it is particularly practical for recycling companies and in the construction, agricultural and gardening sectors, where many different materials have to be processed. It is the MINI version of the SD COMPACT.

△ TECHNICAL DATA

- △ Drum length: 1,49 m
- △ Usable drum length: 1,25 m
- △ Outer diameter of the drum: 0,8 m
- △ Usable screening surface: 3,15 m²
- △ System capacity: 5 - 40 t/h
- △ Mesh size: Ø4 - Ø100 mm
- △ Hopper opening: 1600 x 760 mm
- △ Shovel width: 1,5 m
- △ Speed (adjustable): 5 - 20 rpm
- △ Drive power: 400V / 2,2 kW
- △ Filling height: 1,5 - 1,86 m
- △ Weight: 600 kg

△ HIGHLIGHTS

- △ Vibration motor for emptying the hopper
- △ Three different drum variants
- △ Drum rotation in both directions
- △ Cleaning brush
- △ Easy drum replacement
- △ Single wheel drive
- △ Hourcounter
- △ Adjustable height
