

Used Case Sealer ITAL PAL CSN70 1650 boxes/hour

Machine type:	Case Sealer
Ref:	CC18
Model:	CSN70
Year:	2013
Condition:	Ready for Operation
Containers:	Can, Glass

Technical details

Closure:	0	Safety features:	Yes
Manuals:	Yes	Width:	2600 mm
Length:	4600 mm	Power:	4 kW
Voltage:	380 V	Frequency:	50 Hz

Description

Used Case Sealer ITAL PAL CSN70 1650 boxes/hour

The Used Case Sealer ITAL PAL CSN70 1650 boxes/hour is a machine specifically designed for the automated sealing of American boxes using adhesive tape. Manufactured in 2013, this model operates at a speed of 1650 boxes per hour, thereby ensuring high efficiency in industrial packaging processes.

Technical Features of the ITAL PAL CSN70 Case Sealer

First and foremost, the ITAL PAL CSN70 model includes safety protections that fully comply with industrial safety regulations. Additionally, it comes with technical manuals for seamless configuration and maintenance. Furthermore, the machine is currently in production, which demonstrates its full operational capacity and long-term reliability.

Structurally, the case sealer measures 4600 mm in length and 2600 mm in depth, thus allowing for easy integration into existing production lines. Moreover, the sealing system applies adhesive tape, ensuring a fast and durable closure for American boxes.

Electrical Specifications and Energy Consumption

As far as energy requirements are concerned, the ITAL PAL CSN70 operates with a power supply of 380V, a power consumption of 4 kW, and a frequency of 50 Hz. These specifications, therefore, ensure optimized energy consumption for industrial facilities that require high-performance operations without unnecessary resource waste.

Operational Efficiency and Maintenance

Notably, the ITAL PAL CSN70 case sealer guarantees high productivity by processing 1650 boxes per hour. Consequently, this capacity makes it ideal for large-scale production environments where speed and sealing precision are critical factors.

To enhance long-term reliability, spare parts are readily available, thereby enabling quick maintenance interventions and significantly minimizing machine downtime. Moreover, the machine has undergone periodic overhauls, which confirm its compliance with efficiency and durability standards.

Applications and Advantages of the ITAL PAL CSN70

Without a doubt, this automatic case sealer provides an optimal solution for companies that require a fast and precise system for sealing American boxes. Additionally, the adhesive tape technology ensures uniform and durable adhesion, effectively reducing the risk of accidental openings during handling and transportation.

Moreover, with its compact structure and seamless compatibility with industrial packaging systems, the **Used Case Sealer ITAL PAL CSN70 1650 boxes/hour** integrates effortlessly into existing production lines. As a result, it enhances efficiency without necessitating significant structural modifications.

Conclusion

All things considered, the **Used Case Sealer ITAL PAL CSN70 1650 boxes/hour** offers a highly reliable option for industrial packaging automation. Given its speed of **1650 boxes per hour**, its adhesive tape sealing system, and the availability of overhauls and spare parts, this machine represents a strategic choice for companies striving to optimize their sealing processes and, ultimately, improve overall productivity.
