

Electrolux T4350 Industrial Tumble Dryer – 17.5 kg (2006)

Professional 17.5 kg Industrial Electric Tumble Dryer with Selecta Programmable Control

The Electrolux T4350 is a professional front-loading industrial tumble dryer manufactured by Electrolux Laundry Systems, Sweden. Designed for demanding commercial laundry and garment finishing operations, this robust machine combines reliable performance, low operating costs, and user-friendly programmable controls.

With a 17.5 kg drying capacity, reversing stainless steel drum, and Electrolux's proven Selecta control system, the T4350 is ideal for continuous industrial use in laundries, garment factories, hotels, hospitals, and textile finishing facilities.

This unit was previously used in the MASI JEANS factory and remained fully operational until the factory shutdown.

Video recorded 01.04.2026.

Technical Specifications

- Manufacturer: Electrolux Laundry Systems
- Model: T4350
- Type: N2350ES
- Product Number: 9873802060
- Serial Number: 61401257
- Year of Manufacture: 2006
- Country of Manufacture: Sweden
- Drying Capacity: 17.5 kg
- Heating Type: Electric
- Total Power: 19.3 kW
- Power Supply: 400 V, 3-Phase, 50 Hz
- Current: 28 A
- Recommended Fuse Size: 35 A
- Protection Class: IPX4

Key Features

- 17.5 kg professional drying capacity
- Electrolux Selecta programmable control system
- LCD display with programmable drying programs (P1–P9)
- Reversing stainless steel drum for even drying
- Automatic anti-tangling drum rotation
- Large front loading door
- Easily accessible lint filter
- Heavy-duty industrial construction
- Designed for continuous commercial operation
- Energy-efficient electric heating system

Includes

- Electrolux T4350 industrial tumble dryer
- Integrated Selecta control panel

- Stainless steel drying drum
- Three-phase power cable and industrial plug

Applications

- Commercial laundries
- Garment manufacturing
- Denim production
- Textile finishing
- Hotels
- Hospitals
- Industrial laundry operations
- Professional garment drying

Condition

- Fully operational prior to factory shutdown
- Previously used in professional garment production
- Exceptionally clean drum interior
- Good overall industrial condition
- Normal cosmetic wear consistent with professional use
- Available for inspection before dismantling

Location

Valga, Estonia

Dismantling & Transport

Buyer is responsible for disconnecting, dismantling, loading, transportation, and all related costs.

The machine is already positioned on a heavy-duty wooden pallet, facilitating loading and transport.

Sales Terms

Sold as-is, where-is, without warranty.

Part of the MASI JEANS factory liquidation.

The machine is available individually or together with the complete industrial laundry and garment finishing line.
