

System Flexibility

We can customize the system to match your production conditions.

We have adopted the module design method,
which combines the components to suit the
scale or contents you desire.

[Module design]

■ Machine

■ Workpiece setup
station (WSS)

■ Transfer AGV
(Automatic Guided Vehicle)

■ Pallet racks

A set of 4 pallets, 1 rack (2-level, double-shelf) can
be added.

■ Cell controller
■ Washing station
