### About the machine:

We are offering a DMG DMC 1035 V machining center with Siemens Sinumerik 810 D powerline control. This machining center is in very good original condition. It comes from a company where it was only used for training purposes. A very easy to use control system. The guides are regularly lubricated by the central lubrication system. We have mechanically and electrically tested the DMG DMC 1035 V. Take advantage of the opportunity to view and try out the DMG DMC 1035 V on site with power connected.
